Sai Chethan R

Mysuru, Karnataka | rsaichethan@gmail.com | linkedin.com/in/sai-chethan-r

OBJECTIVE

Actuarial Data Science student combining academic training in statistical modeling with practical lab experience in network security. Looking to leverage data visualization and analytical problem-solving skills in a professional data science or risk management environment.

EDUCATION

Sri Sathya Sai Institute of Higher Learning (SSSIHL) Bengaluru, Karnataka
Bachelor of Science in Actuarial Data Science (5th Semester) Expected Graduation: 2027

- **Relevant Coursework:** Statistics, Mathematics, Data Analytics.

TECHNICAL SKILLS

- **Programming & Tools:** Python (PyTorch, Scikit-Learn), R, C/C++, Git
- **Data & Analytics:** Deep Learning, Statistical Modeling, Data Visualization, Excel
- **Security:** Offensive Security, Network Security Fundamentals

QUALIFICATIONS & CERTIFICATIONS

Institute of Actuaries of India (IAI)

- Actuarial Common Entrance Test (ACET) – Cleared (August 2025)

DataCamp (Data Science & Analytics)

- Statistics Fundamentals in R. (20 Hours)
- Excel Fundamentals (14 Hours)
- Data Visualization in R (12 Hours)
- Introduction to Data Science in Python (4 Hours)
- Intermediate Python (4 Hours)
- Introduction to Regression in R. (4 Hours)
- Introduction to Git (2 Hours)

TryHackMe (Cybersecurity)

- Introduction to Cyber Security
- Pre Security
- Cybersecurity 101

PROJECTS

Customer Churn Analysis | *Data Analysis, Advanced Excel*

- Conducted a guided case study analyzing customer retention metrics using advanced Excel functions to identify attrition patterns.

Exploratory Data Analysis | *Statistical Modeling, R, ggplot2*

- Developed comprehensive data visualizations and performed statistical analysis on sample datasets using R to uncover underlying trends.
